Description

This fully dipped Nitrile coated glove is dipped in sky blue thin-Nitrile, and has black foam Nitrile coating in the palm area. This glove provides comfort and touch sensitivity. The thin Nitrile coating offers limited protection against a wide range of chemical substances while the superior foam overdip ensures excellent grip even in oily applications. An elastic knit wrist holds it firmly on the arm for enhanced fit. This glove is both thin and tough, allowing precision work to be carried out even in the most demanding conditions.

Launder at 40°C (104°F) using a neutral detergent.

Suggested Applications:

- Mechanical and Automotive
- Construction
- Machine or Compartment Assembly
- Handling Oily Objects
- Limited Chemical Contact Splash
- Refineries
- Inspection
- Landscaping

This list of suggested applications is partial and based on laboratory testing of glove performance.
